

## “Elevated” Strawberry Sorbet

2 cups fresh or frozen strawberries  
4 TBSP Point Blank Pepper Company Table Sauce (can use Mild or Hot)  
1 TBSP Lemon Juice

Mix all ingredients in a blender until smooth. Pour into a stainless steel pan and freeze. Serve with fresh mint or top with more berries.

NOTE – If you taste the sorbet after freezing and find it’s not sweet enough, add a little more table sauce and refreeze. The sorbet is not affected by thawing and refreezing.
